

THE B2B FUNNEL CHECKLIST 2026

Thirty checks that separate funnels that quietly leak revenue from funnels that compound. Work through them in order, because the deeper in the funnel a problem sits, the more it costs you. Every box you can't tick is simply your next highest-leverage fix.

✓ TICK AS YOU GO. SCORE YOURSELF ON THE LAST PAGE.

1

FOUNDATION & TRACKING

If you can't measure it, every other fix is a guess.

- ☐ **GA4 is installed and receiving data**, with internal traffic filtered out.
- ☐ **Every conversion is defined as an event**: form submits, calls, bookings, downloads.
- ☐ **Google Tag Manager owns every tag**. No orphan pixels pasted into the theme.
- ☐ **Ad platforms import conversions from one source of truth**, never counted twice.
- ☐ **Your CRM records the original source of every lead**, first touch and last.
- ☐ **Revenue connects back to spend**. You can state last month's true ROAS in one number.

2

TOP OF FUNNEL

Getting found by the right strangers, not the most strangers.

- ☐ **Your ideal customer profile is written down**: industry, deal size, and buying trigger.
- ☐ **Keywords are mapped by intent**. You know which terms are buyers and which are browsers.
- ☐ **Paid campaigns are split by intent tier**, with high-intent search isolated from prospecting.
- ☐ **Your Google Business Profile is complete and active**, with photos and answered reviews.
- ☐ **Technical SEO passes**: indexable, mobile friendly, Core Web Vitals in the green.
- ☐ **One content asset exists for every buying question** prospects ask before they call.
- ☐ **The negative keyword list is reviewed monthly** so spend never leaks to junk queries.

3

MIDDLE OF FUNNEL

Earning trust. Most B2B deals are lost here, silently.

- ☐ **Every campaign lands on a dedicated page.** The message matches the ad, one goal per page.
- ☐ **Landing pages load in under 3 seconds on mobile,** tested on a real phone.
- ☐ **Proof sits near every ask:** testimonials, results, or client logos beside each form.
- ☐ **Your lead magnet is worth a real email address.** Specific and useful, not a brochure.
- ☐ **An email nurture sequence exists,** at least four sends that teach before they sell.
- ☐ **Retargeting is segmented by page visited.** Pricing visitors see different ads than readers.
- ☐ **Forms ask only for what you will actually use.** Every extra field costs you leads.

4

BOTTOM OF FUNNEL

Closing. Speed and friction decide more deals than price does.

- ☐ **New leads get a human response within 24 hours.** Faster is measurably better.
- ☐ **Booking a call takes two clicks or fewer:** a calendar link, not email ping-pong.
- ☐ **A written follow-up cadence exists.** Leads hear from you five times before going cold.
- ☐ **Proposals go out within 48 hours of the call** and state the price plainly.
- ☐ **Every lost deal gets a reason logged.** You know your top three objections cold.
- ☐ **Reviews are requested systematically:** every happy client, every time.

5

MEASUREMENT

One dashboard. One truth. Reviewed on a schedule.

- ☐ One dashboard shows spend, leads, and revenue together, not three reports that disagree.
- ☐ You know your cost per qualified lead by channel, not blended.
- ☐ Customer lifetime value is calculated, so you know what a customer is worth to acquire.
- ☐ A 30-minute funnel review happens weekly. Same metrics, same order, decisions logged.

YOUR SCORE - COUNT YOUR TICKS

0-10	LEAKING BADLY	You're funding guesswork. Start with Section 1. Nothing else matters until tracking is honest.
11-20	FOUNDATIONS, NO ENGINE	The basics exist but they don't compound yet. Fix the middle of your funnel first.
21-26	CLOSE. TIGHTEN THE GAPS	You're ahead of most competitors. The remaining boxes are where the next 30% hides.
27-30	COMPOUNDING	Rare air. Protect it by re-running this checklist quarterly and after every big campaign.

YOUR THREE BIGGEST GAPS

Write down the three unticked boxes that touch revenue most directly. That's your quarter, sorted.
